

## **POLICY SUMMARY**

### **REGIONAL PARCEL DATASET**

#### **– PRIVATE SECTOR VERSION –**

Preamble:

*The guiding principles pertaining to this dataset shall be the same as those endorsed for the public sector and academic version of the Regional Parcel Dataset. Data distributed via this policy are provided in accordance with the Minnesota Data Practices Act, in particular, rules pertaining to not-public data.*

### *Data Specifications*

The data specifications pertaining to the data incorporated into the private sector version of regional dataset shall be the same as those endorsed for the public sector and academic version of the Regional Parcel Dataset.

### *Roles and Responsibilities*

The primary and regional custodian roles and responsibilities pertaining to the data incorporated into the private sector version of regional dataset shall be the same as those endorsed for the public sector and academic version of the Regional Parcel Dataset.

### *Access Requirements*

Ownership of the data assembled into the regional dataset shall remain with the seven counties, the primary producers. The counties shall decide among themselves whether or not to impose a licensing requirement and whether or not to impose a fee for access. If licensing is required, data producers consider a common license agreement as an appropriate mechanism for distribution.
