

Scott County GIS

Does your county...

A. Provide GIS staff services to other county departments, County Board, etc. within the county?

The GIS Department provides data updates, training, technical support, application development, and software tailoring to all departments, the County Board, and Scott County SWCD.

Departments: Assessing, Attorney, Land Records, Facilities Management, Planning & Zoning, Natural Resources, Environmental Health, Transportation, Survey, Maintenance, Administration, Economic Development, Human Services, and Sheriff.

Scott County GIS

Does your county...

B. Provide GIS staff services to the public?

The GIS Department provides weekly parcel data base and attribute information updates to governmental units via our FTP site. The general public can purchase data from the County at various prices:

Digital topo and planimetrics (townships) = \$3/acre

Digital topo and planimetrics (cities) = \$12/acre

Parcels = \$0.05/parcel

Custom mapping = \$40/hour

Static maps = \$3-\$25 per map

Does your county...

C. Support a public (Internet-based) web service to distribute GIS data and/or services?

We currently have six mapping applications available on our web site.

1. Property Information Search
2. Half Section Mapper
3. Quick Map
4. Section Corner Ties and Section Breakdowns
5. Scanned Plat Maps
6. ScottView

Scott County GIS

Does your county...

D. Use GPS technology to establish coordinate control?

- Began using GPS in 1993 through consultants.
- County has since purchased its own GPS equipment.
- County Surveyor's Office is responsible for using and supporting this technology.

Scott County GIS

Does your county...

E. Use COGO technology to capture parcel boundary data?

- All new plats required to submit a digital file of coordinates.
- County Surveyor's Office is responsible for using and supporting this technology.

Scott County GIS
